Teijin to Exhibit at Chinaplas 2024

The Resin & Plastic Processing Business Unit of Teijin Ltd. will be exhibiting at "Chinaplas 2024", the largest plastic trade show in Asia. The trade show will be held at National Exhibition and Convention Center (Shanghai, China) from Tuesday, April 23 to Friday, April 26. Our booth number is "7.2 C-16".

In this exhibition, our concept is "The Power of Resin Supporting the Future Society". We will introduce the latest information about Teijin's resin, which is used in various applications and is the foundation of our environmental sustainability, including our "Approach to Circular Materials". We look forward to providing better proposals tailored to the needs of our customers.

<Main Exhibition Contents>

◆Circular Materials

Material recycling, biomass PC, etc.

◆PC resin grades for each application

Automobiles, medical, high-speed communication, PPS compound resin, flame retardants, new products, etc.
